

VEHICLE TELEMATICS

Plug 'n Play

The Plug 'n Play device simplifies the fleet management and tracking process by offering a self-installation option that uses a straightforward QR code activation process and is delivered straight to you.

With this device, you can easily monitor and manage the **behaviour and performance** of your vehicles and drivers. Receive **instant mobile and web notifications** about driving events and hours to improve the efficiency of your fleet, increase safety, maintain compliance and reduce a variety of costs, including those related to maintenance.

Plug 'n Play is simple to set up with **no training required** for you or your drivers. The device can be plugged into an **OBDII port** that is easily-accessible in most vehicles. When registering for Plug 'n Play, you get **complete payment transparency**. You only pay one flat subscription fee, and one shipping and handling fee.

What does the Plug 'n Play device track?

Driving events

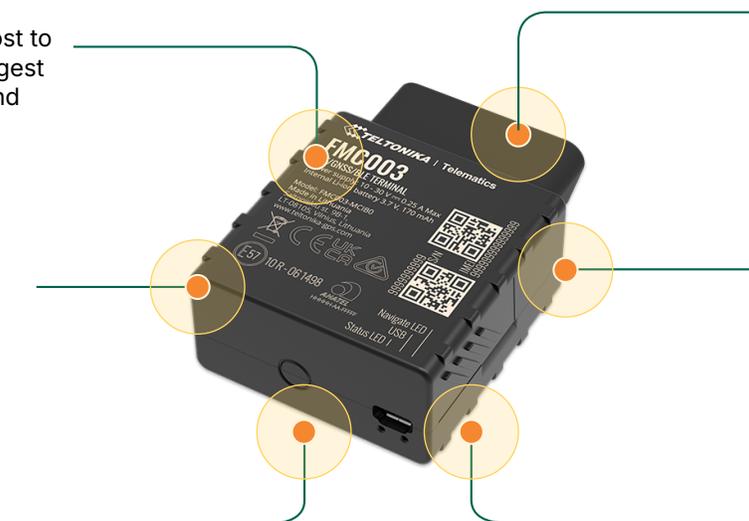

See which drivers speed the most to reduce accidents or idle the longest to minimise fuel consumption and maintenance costs.

Trip distance

Cut down on distances travelled by finding shorter routes or avoiding traffic hotspots.

Trip duration

Find out how long trips take from A to B for a more efficient fleet.

Costs per distance

Calculate how much a vehicle costs to run and determine how to reduce those costs.

Location visits

See exactly what locations a driver visits to prevent unauthorised stops.

Location duration

Reduce time spent on site to increase the amount of work that can be done in a day.

Available in 22 languages

iOS and Android compatible

What benefits does the Plug 'n Play device provide?

Reduced fuel usage

Get instant notifications about fuel-wasting activities, including speeding, excessive idling and over-revving, that allows to intervene immediately.

Improved vehicle health management

Monitor and decrease poor driver behaviour which, in turn, reduces vehicle wear and tear. This translates to needing less vehicle maintenance. Set service and licencing reminders to keep vehicles compliant and running safely.

Prevent time theft

Validate drivers' shift details by setting up geofences that send notifications when drivers enter and exit specific locations.

Optimize payroll management

Accurately report on driving hours, especially overtime, with logbook and geofencing functionalities to efficiently and correctly manage payroll.

Increase vehicle utilisation

Know whether you have the right amount of vehicles on the road at critical times. Track and monitor time spent in certain locations and what routes drivers take. Discover whether your vehicles are being under- or over-utilised.

Plug 'n Play device capabilities

- 30-second position reporting frequency
- Street and satellite maps
- Live tracking
- Trip review
- Alerts and notifications
- Geofencing
- Service and licencing reminders
- Cost and tax logbook
- Fuel and cost reporting
- Web and mobile access
- Transfer devices between vehicles
- Tamper-proof
- Tamper alerts
- Network of accredited installers
- Limited lifetime device warranty

Who is the Plug 'n Play device ideal for?

Consumer services • Utility companies • Delivery companies • Field underwriters from insurance companies • Passenger vehicles Rental and leasing companies • Moving companies (works in most box trucks) • Construction companies and sub-contractors

Powerfleet (Nasdaq: PWFL; JSE: PWR; TASE: PWFL) is a global leader in the artificial intelligence of things (AIoT) software-as-a-service (SaaS) mobile asset industry. With more than 30 years of experience, Powerfleet unifies business operations through the ingestion, harmonisation, and integration of data, irrespective of source, and delivers actionable insights to help companies save lives, time, and money. Powerfleet's ethos transcends our data ecosystem and commitment to innovation; our people-centric approach empowers our customers to realise impactful and sustained business improvement. The company is headquartered in New Jersey, United States, with offices around the globe. Explore more at www.powerfleet.com.
