

Unifying Business Operations with Data-Driven Intelligence

The Challenge:

Fragmented Data, Safety Risks & Operational Inefficiencies

Businesses with mobile assets face an increasingly complex landscape:

Siloed Data & Vendor Overload

Companies struggle with fragmented data across multiple vendors, wasting thousands of hours manually extracting insights that don't drive meaningful outcomes.

Safety & Compliance Risks

Inadequate visibility into on-road and in-warehouse operations leads to accidents, compliance failures, and costly penalties.

Inefficiencies That Drain Profits

Poor asset utilization, excessive downtime, and unpredictable maintenance impact the bottom line.

Our Solutions

The Data Hub That Unlocks Business Transformation

unity

PROBLEM

Multiple vendors, fragmented data, and wasted time.

SOLUTION

Unity ingests and harmonizes IoT data across all asset types, delivering a single source of truth for safety, compliance, and efficiency.

AI-Driven Warehouse & Fleet Safety

PROBLEM

High accident rates, unsafe work environments, and non-compliance risks.

SOLUTION

AI-powered video, forklift safety, and pedestrian detection reduce in-warehouse risk by 54% and on-road collisions by 40%.

On-Road Efficiency & Cost Reduction

PROBLEM

Downtime, fuel waste, and inefficient workflows.

SOLUTION

Predictive analytics optimize asset utilization, reduce fuel costs by 12%, and extend asset lifespan by 11%.

Market Leadership

Merged with MiX Telematics and acquired Fleet Complete, 2,8M+ assets connected, strong partner network

Single Unified Platform for All Mobile Asset Types

AI-Powered Proactive Decision-Making

End-to-End Visibility Across Operations

48,000+ Mid-Market and Enterprise Customers

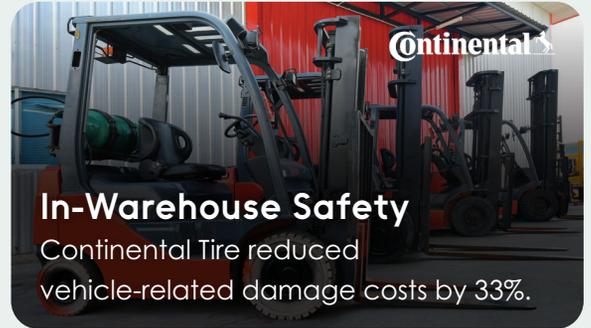

Discover How Powerfleet Can Unify Business Operations

PROVEN SUCCESS

Enterprise Customers

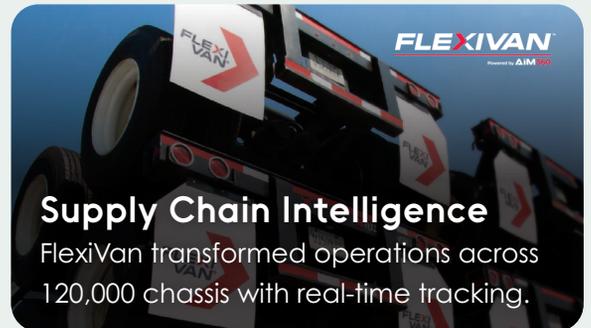

We partner with leading companies across multiple industries.

Our enterprise clients have achieved remarkable results, including:

In-Warehouse Safety

Continental Tire reduced vehicle-related damage costs by 33%.

Supply Chain Intelligence

FlexiVan transformed operations across 120,000 chassis with real-time tracking.

The Powerfleet Advantage

Proven Results

Customers see up to 10:1 ROI, fewer compliance fines, and streamlined operations.

Global Leadership

Merged with MiX Telematics and acquired Fleet Complete, 2,8M+ assets connected, strong partner network

Future-Ready AI & IoT

A differentiated data highway that continuously delivers smarter, faster insights.

Powerfleet doesn't just track data—it turns it into action, helping businesses operate smarter, safer, and more profitably.
