

Powerfleet EasyCheck:

Digital Inspections for Compliance & Efficiency

Optimize Safety, Minimize Downtime, and Ensure
Compliance with Ease.

The Challenge

Fleet managers and drivers face ongoing challenges in maintaining compliance, safety, and operational efficiency.

Traditional paper-based inspections are slow, prone to errors, and lack real-time visibility, leading to delays, breakdowns, and regulatory fines.

Missed defects contribute to costly roadside failures, accidents, and compliance violations.

Many existing solutions only offer basic checks, failing to provide actionable insights that improve fleet performance, enhance safety, and optimize vehicle uptime.

How We Help

EasyCheck is a mobile and web-based inspection platform that streamlines vehicle checks, enhances compliance, and minimizes downtime.

With configurable checklists, real-time issue tracking, and seamless maintenance integration, it ensures fleet readiness.

Connected to **Powerfleet's Unity On-Road IoT**, it delivers live insights into vehicle health, breakdowns, and safety risks—keeping operations running smoothly.

Key Benefits

Regulatory Compliance & Audit Readiness

Maintain audit-ready records and meet global compliance standards with real-time tracking.

Fleet-Wide Visibility & Analytics

Access inspection history, maintenance trends, and compliance insights.

Instant Issue Reporting & Fault Resolution

Capture defects in real time with photo and video evidence.

Breakdown & Accident Tracking

Instantly log roadside failures, accelerate response times, and reduce operational downtime.

Mobile & Web-Based Platform

Conduct inspections via mobile; track & manage through a web dashboard.

Seamless Integration with Powerfleet Unity

Ensures seamless synchronization of inspections, repair workflows, and compliance records for enhanced fleet performance.
