

# Advanced bus & coach safety solutions for South African operators

Transform your transportation safety with proven AI technology that's already protecting thousands of passengers worldwide.

Powerfleet's proven AI-driven solutions are specifically designed for the unique challenges facing South African bus and coach operators. From managing diverse route networks in urban and rural areas to ensuring driver safety on challenging road conditions, operators need technology that delivers measurable results while remaining profitable in a competitive market. Whether you're running municipal services, student transport, or luxury intercity coaches, our modular solution adapts to any fleet size and operational needs.

## • Why leading operators choose Powerfleet:

### Proactive accident prevention

VisionAI technology detects risky driving behaviours in real-time.

Proven to reduce collisions by up to 60% and improve safe driving scores by 84%.

Delivers a 10:1 ROI compared to traditional monitoring systems.

### Real-time driver behaviour coaching

Immediate feedback for drivers to correct unsafe habits before incidents occur.

Encourages a safety-first culture across your entire fleet.

### Passenger-centric safety design

Technology prioritises passenger wellbeing and fleet security.

Reduces risk of accidents in urban, suburban, and long-haul operations.

## End-to-end fleet visibility

Powerfleet's Unity platform offers end-to-end integration – from real-time driver monitoring to comprehensive fleet analytics.

## Lower operating costs, higher uptime

Optimised scheduling and predictive maintenance reduce downtime and fuel consumption.

Streamlines operations to maximise fleet efficiency.

## Seamless reporting & compliance

Automated reporting simplifies compliance with safety regulations and insurer requirements.

Track driver behaviour, incidents, and maintenance records effortlessly.

## Scalable solutions

Modular technology for seamless integration.

Flexible deployments for mixed fleets, multi-location operations, and different vehicle types.

## Global support, local knowledge

With over 30 years of experience and 48,000 customers in 120 countries, we understand the unique challenges that passenger transport operators face.
