

Safety in sight, AI in action

Real-time intelligence. Real-world safety.

Enhance your VisionAI solution with our SafeGuard add-on module that blends human expertise with the power of AI.

Flags **high-risk** driver behaviour before accidents happen

Reduces unnecessary alerts by **95%**

Cuts manual video review time by **80%**

Prioritises interventions based on actual **risk levels**

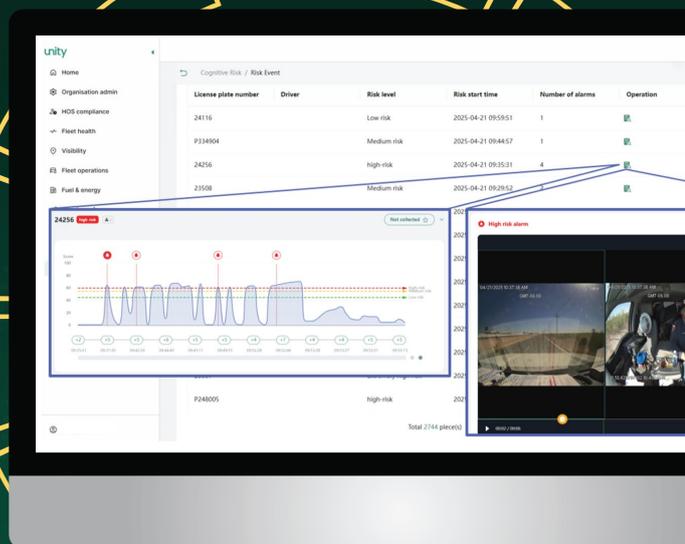

Enables **real-time** communication with drivers

Human + AI = Real-time risk mitigation

Seamlessly integrated with Powerfleet's Unity Operations Centre (UOC), SafeGuard helps you prevent accidents before they happen:

- ⌚ 24/7 monitoring of driver, vehicle, and fleet activity
- ⌚ Immediate fatigue detection and intervention
- ⌚ Real-time alerts sent via phone call and Telegram
- ⌚ Alerts include driver name, vehicle details, location, event info, and a video clip
- ⌚ UOC analysts stay on the case until the vehicle is safely off the road

Prevent accidents. Protect lives. Save costs.

When fatigue is detected, our analysts contact your fleet controller directly, allowing your team to follow internal SOPs and take swift action to get the driver off the road. This proactive measure prevents accidents before they happen, safeguarding your drivers, vehicles, and bottom line.

Why transition to AI-based video & SafeGuard?

Traditional video only records, while AI-based video helps prevent accidents in real-time. VisionAI enhances fleet safety, reduces liability, and streamlines operations.

Prevent accidents before they happen

Real-time **driver coaching** improves on-road behaviour instantly.

AI-powered fatigue & distraction detection identifies risks early to help prevent incidents.

Reduce manual work & improve efficiency

Automated post-trip coaching enhances driver performance without adding to their workload.

80% reduction in manual video review – focus only on critical events.

Gain real-time risk insights

Live risk assessment & prioritisation allows proactive fleet management.

Actionable interventions before incidents occur prevent costly accidents.

The results you can expect

Save time, save money, save lives...

- Confidence in risk management controls
- Prevent collisions
- Reduce liability and cost associated with insurance claims
- Optimised asset utilisation
- Lower operating costs
- Full visibility of on-road activities

The future of fleet safety. Powered by AI.

See the same results our customers are achieving.

60%

fewer collisions

25%

lower insurance costs

10:1

return on investment

Powerfleet (Nasdaq: PWFL; JSE: PWR; TASE: PWFL) is a global leader in the artificial intelligence of things (AIoT) software-as-a-service (SaaS) mobile asset industry. With more than 30 years of experience, Powerfleet unifies business operations through the ingestion, harmonisation, and integration of data, irrespective of source, and delivers actionable insights to help companies save lives, time, and money. Powerfleet's ethos transcends our data ecosystem and commitment to innovation; our people-centric approach empowers our customers to realise impactful and sustained business improvement. The company is headquartered in New Jersey, United States, with offices around the globe. Explore more at www.powerfleet.com.
