

Who Are We?

Powerfleet, a **global leader in AIoT** and **mobile asset SaaS**, provides data-driven insights that unify operations, helping **businesses save lives, time, and money**. We empower customers with a people-centric approach and a robust data ecosystem, driving innovation, scalability, and strategic growth.

With our 2024 merger with **MiX Telematics** and acquisition of **Fleet Complete**, we've become one of the **largest AIoT SaaS providers**, enhancing global performance through cutting-edge technology.

Our Solutions

unity

Unity Ecosystem

Powerfleet's SaaS-based platform, Unity, integrates data from any IoT device, OEM, or external source, using AI and machine learning to harmonize diverse datasets, delivering actionable insights for better decision-making and business performance.

On-Road

Vision AI

Multi-camera, real-time alerts to prevent fatigue, distractions, and provide Advanced Driver Assistance System warnings.

Other tools: MiX Fleet Manager

In-Warehouse

Forklift Gateway

Automates vehicle management for safety and efficiency.

Pedestrian Proximity Detection

Alerts drivers and pedestrians to avoid accidents.

Other tools: DVRs, Speed Managers, Forklift Scales, and Safety Lights.

Why Powerfleet?

Scalability

Tailored solutions for businesses of all sizes.

Global Partner Network

Driving success and innovation worldwide in partnership with local experts.

Unified Solutions

AI-powered, OEM-agnostic technology connecting all business processes.

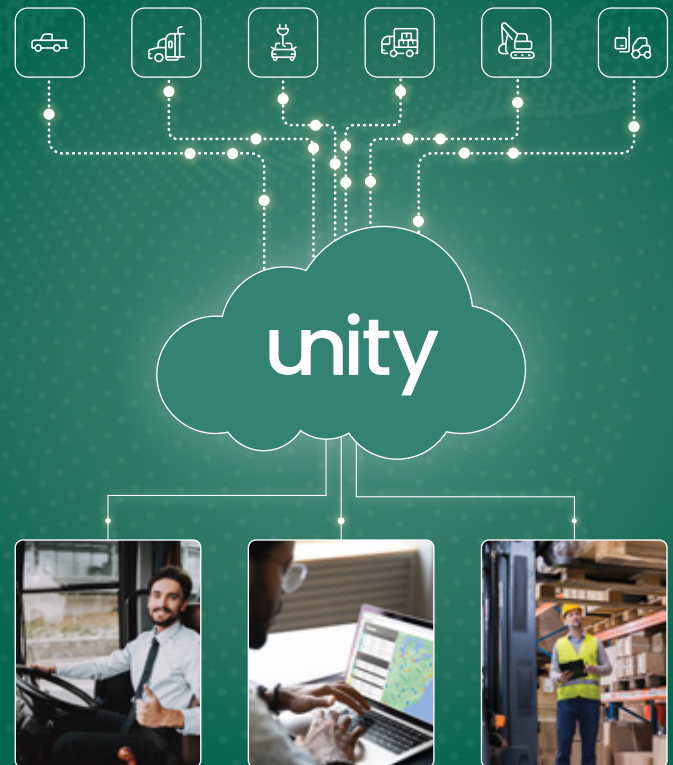

Proven Impact

Enhancing safety, reducing costs, and delivering measurable results.

Supporting All Industries

Supporting logistics, transportation, construction, retail, utilities and manufacturing with mobile asset safety and efficiency solutions.

Our Trusted Local & Global Partners
