

Every driver. Every delivery. Every mile.

AI video, driver monitoring, and real-time fleet visibility for Food & Beverage operations.

The Challenge

Food & Beverage fleets face constant pressure from tight delivery windows, long driver shifts, rising fuel costs, and increasingly complex compliance requirements. Yet many operations still manage their fleets reactively, only discovering incidents after they have already happened.

The result is avoidable collisions, increasing insurance costs, and expanding reputational risk.

The Powerfleet Approach

Powerfleet connects AI-powered dashcams and fleet intelligence across your delivery operations – integrated through Unity, our single-pane-of-glass platform that connects on-road and on-site operations across your entire estate. One platform. Complete visibility.

What We Deliver

AI video & driver monitoring

Detect fatigue, distraction, phone use, lane departure, and unsafe following distance in real time – with in-cab alerts that coach drivers before incidents occur.

Fleet intelligence

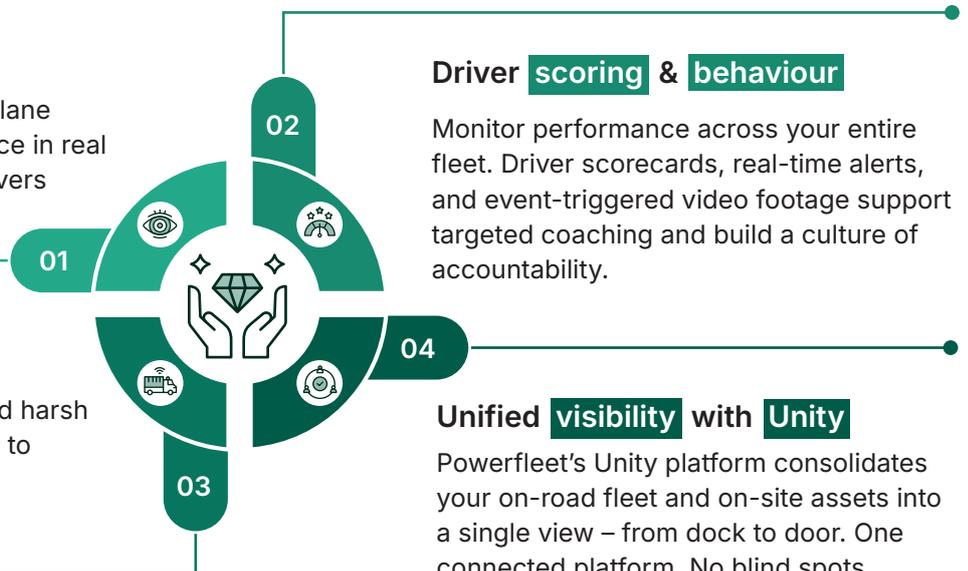

Track vehicle locations, monitor fuel consumption, idling time, speeding, and harsh driving events. Manage trips from start to finish, improve efficiency, and reduce operating costs.

Driver scoring & behaviour

Monitor performance across your entire fleet. Driver scorecards, real-time alerts, and event-triggered video footage support targeted coaching and build a culture of accountability.

Unified visibility with Unity

Powerfleet's Unity platform consolidates your on-road fleet and on-site assets into a single view – from dock to door. One connected platform. No blind spots.

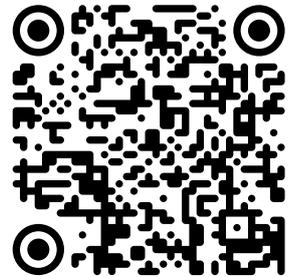

Proven in Food & Beverage

Trusted by global Food & Beverage manufacturers to improve **driver safety scores** by **84%** and reduce collisions by **60%**.

Why It Matters

Fewer on-road incidents and collisions

Lower fuel and operating costs

Improved driver accountability

Reduced insurance exposure

End-to-end visibility, from warehouse to final delivery

POWERFLEET®

On-road **safety**. Fleet **efficiency**. Complete **visibility**.
