

VIDEO DATA

Unlock borderless video monitoring and streaming

Plug-and-play connectivity solution designed for cross-border coverage

Enjoy seamless, reliable connectivity for your video monitoring solutions throughout Southern and Central Africa. Designed for high-data needs like live streaming and remote footage retrieval, our plug-and-play SIM solutions enable you to scale across borders without roaming gaps or integration issues.

Why choose our solution?

Features

Borderless coverage

Reliable, borderless connectivity across Southern, Central, East, and West Africa – from South Africa and Kenya to the DRC, Uganda, and beyond – automatically connecting to multiple local mobile networks to keep you online across borders.

Optimised for video

Supports multi-GB data plans per SIM for uninterrupted streaming, uploads, and video access without throttling.

Resilient network architecture

Geo-redundant IMSI profiles guarantee maximum uptime and smooth network switching.

Scalable data Plans & transparent pricing

Choose from affordable tiered plans (1 GB, 3 GB+) with flexible billing and fair usage policies to keep costs predictable.

Trusted technology partner

Powered by floLIVE and CommsCloud's Cloud Connect SIMs, delivering multi-network resilience and proven IoT performance.

Plug & play

Compatible with leading dashcams and hardware, no firmware updates needed.

● Benefits

Smart SIM management & monitoring

Gain full control with real-time SIM health, data usage, and location monitoring through REST API.

Easily integrate with your platform to activate, suspend, top-up, switch IMSI profiles, and more – all designed for simple management and improved visibility.

Fleet-ready onboarding

Batch processing allows seamless onboarding for large fleets or multiple clients, ensuring rapid scaling without integration issues.

High resilient SIM logic

Autonomous network switching ensures high uptime.

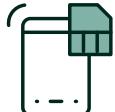

Regional compliance

SIMs operate on local country profiles, avoiding roaming penalties and coverage gaps.

Improved customer experience

Fewer support calls mean smoother, hassle-free service.

Fleet-ready onboarding

Ready to boost your connectivity strategy?

Contact our Business Development Team to discuss integration kits, SIM onboarding, and pricing.

Powerfleet (Nasdaq: PWFL; JSE: PWR; TASE: PWFL) is a global leader in the artificial intelligence of things (AIoT) software-as-a-service (SaaS) mobile asset industry. With more than 30 years of experience, Powerfleet unifies business operations through the ingestion, harmonisation, and integration of data, irrespective of source, and delivers actionable insights to help companies save lives, time, and money. Powerfleet's ethos transcends our data ecosystem and commitment to innovation; our people-centric approach empowers our customers to realise impactful and sustained business improvement. The company is headquartered in New Jersey, United States, with offices around the globe. Explore more at www.powerfleet.com.
