

Solutions for Material Handling Dealers

Bringing Safety and Efficiency to the Forefront of your Manufacturing and Warehousing Operation

Staying competitive means standing out.

It's no longer just about the sale or lease of material handling equipment (MHE) like forklifts. Businesses want a trusted advisor – one that knows the ropes and can offer the latest technology for operator and pedestrian safety, maintenance, resource management, and compliance. Keeping up with these trends is no small feat. Combine this with the pressures of protecting your own assets and people, all while keeping costs low and productivity high, it feels out of reach.

IoT and telematics can add value to your efforts, provided you have the right partner by your side.

That is Powerfleet.

● Solution at a Glance

Powered by unrivalled data insights, Powerfleet digitalises operations through advanced automation from machine learning, simulation, and artificial intelligence (AI). Our fully agnostic fleet intelligence platform ingests, processes, and enriches data from every asset, vehicle, and person – all in a single pane of glass. Supported by a world-renowned services team with nearly 30 years' experience, Powerfleet is purpose-built to meet both your goals and your customers' goals.

This includes:

Safety and Security

- Increase pedestrian safety with real-time operator alerts on incursions, and identifying danger spots
- Automate safety check lists
- Effectively manage access privileges, determining who, when, and how individuals can interact with the vehicle, all based on the unique driver identification
- Capture key metrics and leverage operator leaderboards for positive coaching
- Monitor a wide range of events, such as speed, impact and more, in real-time
- Reduce false alerts and achieve higher reliability for event tracking
- Establish cause and potentially mitigate liability with forensic data

Maintenance and Performance

- Reduce unplanned downtime and costs from under or overservicing based on real-world usage
- Track vehicle usage hours to forecast preventative maintenance
- Increase vehicle longevity with maintenance alerts, and real-time updates on potential health issues and diagnostics

Regulatory Management and Compliance

- Feel confident with regulatory management, by intelligently streamlining compliance workflows in adherence to health and safety requirements
- Prevent unqualified individuals from driving equipment
- Regulate speed and other driver activities in adherence with facility criteria
- Limit violations and, in turn, the potential for litigation

Visibility and Resource Management

- Get a pulse on equipment lifecycles and demands to strategically plan around your own and your customers' needs
- View actual engine hours to unearth hidden costs from wear and tear or after-hours use for accurate billing
- Improve billing accuracy for maintenance and rental contracts, protecting customer relationships and quickly resolve disputes
- Eliminate time and resources wasted investigating incidents
- Decrease damage to equipment racking and inventory, while avoiding asset misuse, from increased accountability
- Benefit from a mix of OEM vehicles and third-party tools to assure you and your customers have the right solution for the job

Results

With Powerfleet you can make fast, informed decisions to automate operations and capitalise on the latest fleet technologies. Win more deals with real-time, multi-dimensional KPIs tailored for both your business and your customers. Be ready for today, and for what tomorrow holds.

Put your trust in Powerfleet to:

Improve the safety environment

Optimise utilisation of your fleet

Adhere to compliance standards

Shrink operating costs

Avoid legal action

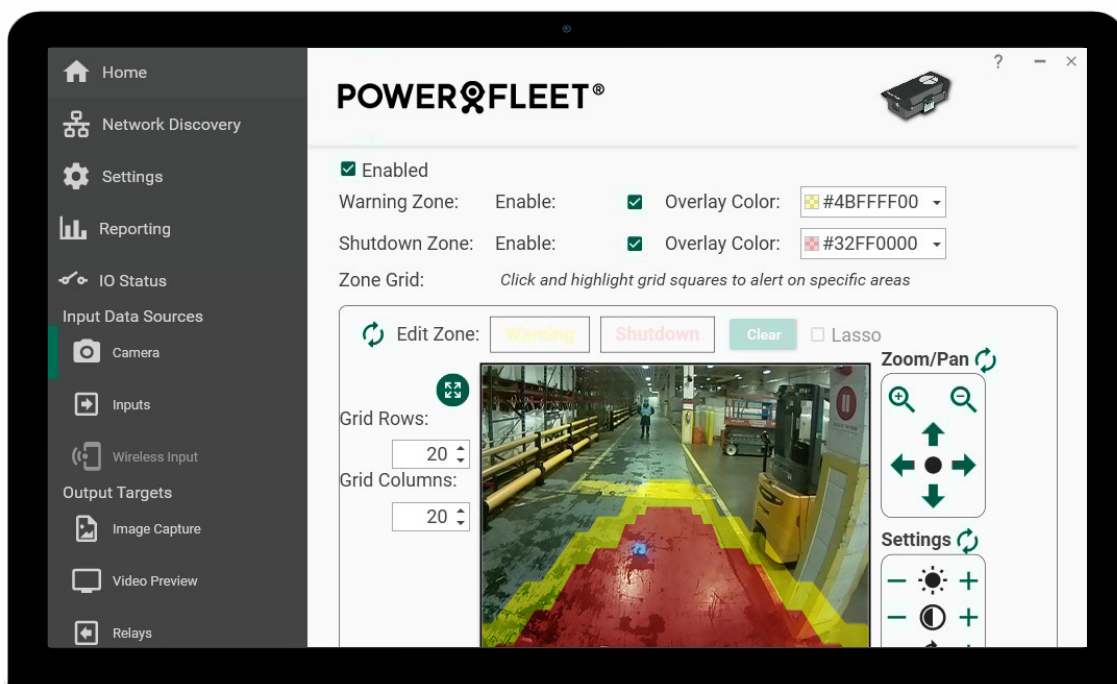

Increase vehicle longevity

Protect your brand reputation

Boost employee morale

Powerfleet (Nasdaq: PWFL; JSE: PWR; TASE: PWFL) is a global leader in the artificial intelligence of things (AIoT) software-as-a-service (SaaS) mobile asset industry. With more than 30 years of experience, Powerfleet unifies business operations through the ingestion, harmonisation, and integration of data, irrespective of source, and delivers actionable insights to help companies save lives, time, and money. Powerfleet's ethos transcends our data ecosystem and commitment to innovation; our people-centric approach empowers our customers to realise impactful and sustained business improvement. The company is headquartered in New Jersey, United States, with offices around the globe. Explore more at www.powerfleet.com.
