

Powerfleet's Anti-Siphon Solution

Stop Fuel Theft and Secure Your Operations with TankSafe®

OVER 3.1 MILLION
DEVICES SOLD WORLDWIDE

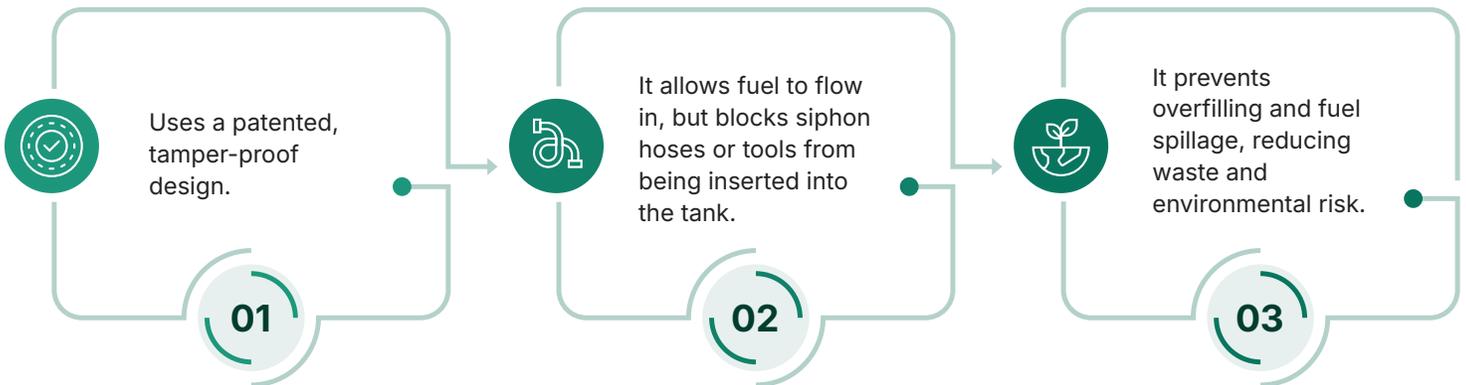

Powerfleet's fuel management extends beyond just tracking consumption with TankSafe®, our anti-siphon solution. Designed to protect vehicle fuel tanks from diesel theft, spillage, and skimming, TankSafe® seamlessly integrates into Powerfleet's full range of fleet management solutions.

How it works

TankSafe® uses a unique float-valve system that allows fuel to flow into the tank during filling, then automatically locks once complete, while SenderSafe prevents tampering or removal of the fuel sender pipes.

Key Features

Benefits For Companies

Stop diesel theft

Protects valuable fuel from being stolen – especially important for transport, logistics, construction, mining, and agriculture fleets.

Protect profits

Fuel is one of the biggest operating costs. Preventing fuel loss means more money remains in the business.

Reduce downtime & disruption

Less time spent on investigating theft, filing insurance claims, or dealing with refuelling delays.

Enhance fleet efficiency

By securing fuel tanks, companies can better monitor fuel consumption, plan logistics precisely, and improve operational control.

Quick ROI

Most businesses recoup installation costs quickly by reducing fuel loss and improving fleet reliability.

Easy to install, durable design

TankSafe® devices are built for long-term use and are easy to install.

Start protecting one of your most valuable assets

Through TankSafe®, Powerfleet offers businesses peace of mind by safeguarding one of their most vulnerable and valuable assets – their fuel. It's a smart, preventative investment that provides security, savings, and sustainability.
